

The Next Generation of Fully Managed DBaaS

Why Choose RDX?

- *Cloud Operations Expertise*
- *World Class DBAs*
- *Security & Compliance*
- *Real-Time Cost & Performance Management*
- *Leading DBaaS Automation*
- *HA & Disaster Recovery*
- *24/7 Customer Support*
- *Proven Delivery Model Based on ITIL*
- *Commitment to Cloud Innovation*

RDX delivers a fully managed DBaaS experience for Oracle, SQL Server, PostgreSQL and MySQL. Our new G5 intelligent software platform delivers a secure, performance-rich, multi-cloud experience with full HA and on demand scale. The service efficiently combines cloud orchestration & automation with DBA expertise to reduce operating costs, improve TTM and simplify procurement & outsourcing models. With G5, you bring your cloud (BYOC) and your licenses (BYOL) while we bring a fully managed service to migrate and sustain a mission critical function of your IT operation.
